EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Kathryn Sanchez (Registry No. 43081) on October 5, 2005.

The application has been amended as follows: In claim 26 after the first occurrence of PO3G delete the phrase "wherein the PO3G".

Allowable Subject Matter

2. Claims 24-27, 30 and 31 (now claims 1-6) are allowed.

3. The following is an examiner's statement of reasons for allowance: claims 24-27, 30 and 31 are allowable over the prior art because the closest prior art, i.e., Morris et al. (US 2,520,733), teaches away from the instant invention because Morris et al. teach that treatments with activated carbon fail to improve the color of the trimethylene glycol polymers (see column 6, line 67 to column 7, line 11). Further, the method disclosed as effective by Morris et al., i.e., percolation with hydrogenation (see column 7, lines 37-45) only produces the polymer having a Gardner color of 8, which corresponds to an APHA color of greater than 300, see pages 7 and 8 of Applicants response filed August 9, 2004.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
